

Waringstown Primary School

E-Safety Policy and Acceptable Use Agreement

<i>Updated By</i>	<i>S Williamson</i>
<i>Date Accepted by BoG</i>	<i>September 2016</i>
<i>Review Date</i>	<i>Annually</i>

Introduction

Information and Communication Technology (ICT) covers a wide range of resources including web-based and mobile learning. Currently the internet technologies children and young people are using, both inside and outside of the classroom, include:

- *Websites*
- *Learning Platforms and Virtual Learning Environments*
- *Email and Instant Messaging*
- *Chat Rooms and Social Networking*
- *Blogs and Wikis*
- *Podcasting*
- *Video Broadcasting*
- *Music Downloading*
- *Gaming*
- *Mobile/Smart phone with text, video and/or web functionality*
- *Internet connected TV*
- *Other mobile devices with web functionality*

While these ICT resources can be exciting and beneficial both in and out of the context of education, all users need to be aware of the range of risks associated with the use of Internet Technologies.

In Waringstown Primary School we understand the responsibility to educate our pupils in E-Safety issues. We aim to teach the children appropriate behaviours and critical thinking to enable them to remain both safe and legal when using Internet and related technologies, in and beyond the context of the classroom.

The school has a duty to provide pupils with quality internet access as part of their learning experience. The internet is part of the statutory curriculum and an entitlement for pupils as part of their learning experience. It is used in this school to raise educational standards, promote pupil achievement and as a necessary tool for staff to support their professional work. The internet also enhances the school's management information and business administration systems.

The Internet

The Internet is a unique and exciting resource. It brings the world into the classroom by giving children access to a global network of educational resources. There is no doubt that the use of the Internet is an essential skill for children as they grow up in the modern world. The Internet is, however, an open communications' channel, available to all. Anyone can send messages, discuss ideas and publish materials with little restriction. This brings young people into contact with people from all sectors of society and with a wide variety of materials, some of which could be unsuitable. Key Concerns are:

Potential Contact

Children may come into contact with someone who may wish to harm them. Some adults use social networks, chat rooms or e-mail to communicate with children for inappropriate reasons.

Children should be taught:

- That people are not always who they say they are.*
- That "Stranger Danger" applies to the people they encounter through the internet.*
- That they should never give out personal details or*
- That they should never meet alone anyone contacted via the internet, and*
- That once they publish information it can be disseminated with ease and cannot be destroyed.*

Inappropriate Content

Through the Internet there are unsuitable materials in many varieties. Anyone can post material on the Internet. Some material is published for an adult audience and is unsuitable for children e.g. materials with a sexual content. Materials may express extreme views e.g. some use the web to publish information on weapons, crime and racism which would be restricted elsewhere. Materials may contain misleading and inaccurate information e.g. some use the web to promote activities which are harmful such as anorexia or bulimia.

Children should be taught:-

- That information on the internet is not always accurate or true.*
- To question the source of information.*
- How to respond to unsuitable materials or requests and that they should tell a teacher/adult immediately.*

Excessive Commercialism

The internet is a powerful vehicle for advertising. In visiting websites children have easy access to advertising which is very persuasive.

Children should be taught:

- Not to fill out forms with a lot of personal details.*
- Not to use an adult's credit card number to order online products.*

If children are to use the internet in places other than at school e.g. - libraries, clubs and at home, they need to be educated about how to behave on-line and to discuss problems. There are no totally effective solutions to problems of Internet Safety. Teachers, pupils and parents must be vigilant.

Aims

We aim to help every pupil and adult to:

- Feel safe and confident when using new technologies.*
- Know who to speak to when they feel unsafe.*
- Know how to report any abusive behaviour.*
- Know how to use the internet correctly, without misuse.*
- Stay in control and keep personal information private.*
- Take the necessary measures to block and delete accounts, messages and people.*

Roles and Responsibilities

As E-Safety is an important aspect of strategic leadership within the school, the Principal and Board of Governors have ultimate responsibility to ensure that the policy and practices are embedded and monitored. It is the role of the ICT Co-ordinator to keep abreast of current E-Safety issues and guidance through organisations such as CEOP (Child Exploitation and Online Protection) and the Childnet. The ICT Co-ordinator/Team has responsibility for leading and monitoring the implementation of E-Safety throughout the school.

The Principal/ICT Co-ordinator have the responsibility to update the Senior Leadership Team and Governors with regard to E-Safety and all governors should have an understanding of the issues at our school in relation to local and national guidelines and advice.

Writing and Reviewing the E-Safety Policy

This policy, supported by the school's Acceptable Use Agreement for staff and pupils, is to protect the interests and safety for the whole school community.

It has been agreed by the Senior Leadership Team, Staff and approved by the Governing Body. The E-Safety policy and its implementation will be reviewed annually.

E-Safety Skills' Development for Staff

- All staff will be given the School E-Safety Policy and its application and importance explained.*
- All staff will receive regular information and training on E-Safety issues through the Co-ordinator/ICT Team at staff meetings.*
- Staff should be aware that internet traffic can be monitored and traced to the individual user. Discretion and professional conduct is essential.*
- All staff have been made aware of individual responsibilities relating to the safeguarding of children within the context of E-safety and know what to do in the event of misuse of technology by any member of the school community.*
- New staff members will receive a copy of the E-Safety policy and Acceptable Use Agreement and sign an Acceptable Use Agreement.*
- All staff are encouraged to incorporate E-Safety into their activities and awareness within their lessons.*

E-Safety Information for Parents/Carers

- Parents/carers are asked to read through and sign the Acceptable Use Agreements on behalf of their child.*
- Parents/carers are required to make a decision as to whether they consent to images of their child being taken and/or used on the school website.*
- The school website contains useful information and links to sites like CEOP's thinkuknow, Childline, and the CBBC Web stay safe page.*
- The school will communicate and promote relevant E-Safety information through newsletters and the school website.*
- The school will communicate with and promote outside bodies such as NSPCC, Love for Life and the PSNI to ensure Parents are kept up to date and informed of Internet information.*
- Internet issues will be handled sensitively and parents will be advised accordingly.*

Parents should remember that it is important to promote E-Safety in the home and to monitor Internet use.

- *Keep the computer/ipad/tablet in a communal area of the home.*
- *Be aware that children have access to the Internet via gaming stations and portable technologies such as smart phones/games consoles/tablets.*
- *Monitor on-line time and be aware of excessive hours spent on the Internet.*
- *Take an interest in what children are doing. Discuss with the children what they are seeing and using on the internet.*
- *Advise children to take care and to use the Internet in a sensible and responsible manner. Know the SMART tips.*
- *Discuss the fact that there are websites/social networking activities which are unsuitable.*
- *Discuss how children should respond to unsuitable materials or requests.*
- *Remind children never to give out personal information online.*
- *Remind children that people on line may not be who they say they are.*
- *Be vigilant. Ensure that children do not arrange to meet someone they meet online.*
- *Be aware that children maybe using the internet in places other than their own home or at school and that this internet use may not be filtered or supervised.*
- *Keep passwords private at all times and do not allow their children access to these.*

Teaching and Learning

Internet use:

- *The school will plan and provide opportunities within a range of curriculum areas to teach E-Safety. Pupils will be taught SMART rules. (REF: www.teachingideas.co.uk based on ThinkUKnow site)*
- *Key E-Safety messages will be reinforced annually through an assembly and safer Internet Week.*
- *The school will liaise with local organisations to establish a theme or common approach to E-Safety in the form of a workshop/talk. This may take place in Key stages or as a whole school approach.*

- *Educating pupils on the dangers of technologies that may be encountered outside school is done informally when opportunities arise and as part of the E-Safety curriculum.*
- *Pupils are aware of the impact of online bullying and know how to seek help if these issues affect them. Pupils are also aware of where to seek advice or help if they experience problems when using the Internet and related technologies: i.e. parent/carer, Safe Guarding Team, Class Teacher/trusted member of staff.*
- *E-Safety is a focus in all relevant areas of the curriculum.*
- *The school Internet access is filtered through the C2k managed service/iTeach Classnet system. No filtering service is 100% effective: therefore all children's use of the Internet is supervised by an adult.*
- *Use of the Internet is a planned activity. Aimless surfing is not encouraged. Where pupils are allowed to freely search the Internet e.g. using search engines, staff are vigilant in monitoring the content of the websites the young people visit and encourage pupils to use specific search terms to reduce the likelihood of coming across unsuitable material.*
- *Pupils will be helped to understand and act in accordance with the ICT Acceptable Usage Agreement of Pupils.*
- *Pupils will be educated in the effective use of the Internet in research, including the skills of knowledge, location, retrieval and evaluation.*
- *The school will ensure that the use of internet derived materials by staff and pupils complies with copyright law.*
- *Pupils should be taught to be critically aware of the materials they read and shown how to validate information before accepting its accuracy.*
- *Children are taught to be Internet Wise. Children are made aware of Internet Safety Rules and are encouraged to discuss how to cope if they come across inappropriate material.*
- *When using digital images, pupils are taught about the risks associated with the taking, use, sharing, publication and distribution of images including on social networking sites.*
- *Staff act as good role models in their own use of ICT.*

Emails:

- *Pupils may only use approved e-mail accounts in school, e.g. C2k e-mail accounts on the school system.*
- *Pupils must immediately tell a teacher if they receive offensive e-mail.*
- *Pupils must not reveal personal details of themselves or others in e-mail communication, or arrange to meet anyone without specific permission.*
- *The forwarding of chain mail is not permitted.*
- *Children are not always given individual e-mail addresses. In some instances children may have access to a group e-mail address to communicate with other children as part of a particular project. Messages sent and received in this are supervised by the teacher.*

Social Networking:

- *The school network system will block access to social networking sites.*
- *Pupils and parents will be advised that the use of social network pages outside school is inappropriate for primary aged pupils. However, we accept that some pupils will still use them; they will be advised never to give out personal details of any kind, which may identify them or their location.*
- *Pupils are advised to set and maintain profiles on such sites to maximum privacy and deny access to unknown individuals.*
- *Pupils will be advised not to place personal photos on any social network space. Advice should be given regarding background detail in a photograph which could identify the pupil or his/her location e.g. house number, street name or school.*
- *Our pupils are asked to report any incidents of bullying to the school.*
- *Pupils will be advised that sending abusive messages or images in any online format will be considered as bullying and will be dealt with accordingly.*
- *If staff or pupils discover unsuitable sites, the URL must be reported to a member of the ICT Team.*
- *School staff will not add children as 'friends' if they use these sites.*

Mobile Technologies:

- *The use of portable media such as memory sticks and external hard drives will be monitored closely as potential sources of computer virus and inappropriate material.*
- *Staff should not store pupils' personal data and photographs on memory sticks.*
- *Pupils are not allowed to use personal mobile devices/phones (in school) during class.*
- *Staff should not use personal mobile phones during designated teaching sessions.*

Managing Video-conferencing:

- *Videoconferencing will be via the C2k network/iTeach Classnet to ensure quality of service and security.*
- *Videoconferencing will be appropriately supervised.*

Publishing Pupils' Images and Work

The school Website's address is www.waringstownps.co.uk. As our website continues to grow, we intend to develop the existing gallery/articles featuring both pupils work and the pupils themselves engaged in a variety of noteworthy activities. When posting photographs to the site we will ensure that:

- *Written permission from parents or carers will be obtained before photographs of pupils are published on the school Website. This consent form is considered valid for the entire period that the child attends this school unless there is a change in the child's circumstances where consent could be an issue.*
- *Parents/carers may withdraw permission, in writing, at any time.*
- *Photographs that include pupils will be selected carefully and will not enable individual pupils to be clearly identified.*
- *Pupils' full names will not be used on the school Website in association with photographs.*
- *Teachers will endeavour to take pictures of groups or group activities, however individual pictures will be used from time to time.*
- *Staff are allowed to take digital/video images to support educational purposes following the E-Safety policy. Images should only be taken on school equipment, e.g. school cameras, iPads.*

- *Any member of the ICT Team has the authority to refuse, withdraw or delete an inappropriate image or article from the school website. The principal will also have the ability to do this.*
- *Pupil's work will be displayed on our school website on occasions.*
- *Any article/image on our website remains the property of our school.*
- *Pupils will share their work via the Seesaw App - this will be restricted to individual class forums only. Pupils and parents will be trained in the use of this App and reminded that comments are seen by all participants. E-Safety and Safe Guarding rules will apply in the use of this App.*

Policy Decisions

Authorising Internet Access:

All staff must read and sign the ‘Acceptable Use Agreement For Staff’ before using any school ICT resource.

- All access to the internet will be supervised.
- The school will take all responsible precautions to ensure that users access only appropriate material. However, due to the global and connected nature of Internet contact, it is not possible to guarantee that access to unsuitable material will never occur via a school computer. Therefore the school cannot accept liability for the material accessed or any consequences resulting from Internet use.
- Complaints of Internet misuse will be dealt with by the Safe Guarding Team in school.
- Any complaints about staff misuse must be referred to the Principal.
- E-Safety rules will be posted in all classrooms with Internet access.
- Pupils will be informed that network and Internet use will be monitored.
- Instruction in responsible and safe use should precede Internet access.

Password Security:

- Adult users are provided with an individual login username and password, which they are encouraged to change periodically. Login details should not be shared with pupils.
- All pupils are provided with an individual username and password.
- Pupils are not allowed to deliberately access files on the school network which belong to their peers, teachers or others.
- Staff Areas/\\Folders are the individual responsibility of each teacher to ensure they protect the security and confidentiality of the school network.

Handling E-Safety Complaints:

- *Complaints of internet misuse will be dealt with by the Safeguarding Team who will inform the ICT Co-Ordinator/Team if and when appropriate.*
- *Deliberate access to inappropriate materials by any user will lead to the incident being logged by the ICT Co-Ordinator and reported to Safeguarding Team/SLT/Principal.*
- *Any complaint about staff misuse must be referred to the Principal.*
- *Complaints of a child protection nature must be dealt with in accordance with school child protection procedures.*
- *Pupils and parents will be informed of the complaints' procedure.*

Communicating the Policy

Introducing the E-Safety Policy to pupils

- *E-Safety rules will be displayed in all classrooms and discussed with the pupils at the start of each year. The SMART rules will be continually reinforced throughout the school year in all aspects of the curriculum when using the Internet. Specific lessons on E-Safety will be taught by class teachers at the beginning of every year and at relevant points throughout e.g. during PDMU lessons/circle times.*
- *Pupils will be informed that network and Internet use will be monitored.*

Staff and the E-Safety Policy:

- *All staff will be given the School E-Safety Policy and its importance explained.*
- *Any information downloaded must be respectful of copyright, property rights and privacy.*
- *Staff should be aware that Internet traffic could be monitored and traced to the individual user. Discretion and professional conduct is essential.*
- *A laptop/iPad issued to a member of staff remains the property of the school. Users of such equipment should therefore adhere to school policy regarding appropriate use with regard to Internet access, data protection and use of software, both in and out of school.*

Monitoring and review:

This policy is implemented on a day-to-day basis by all school staff and is monitored by the ICT Co-ordinator/Team.

This policy is the Governors' responsibility and they will review its effectiveness annually. They will do this during reviews conducted between the ICT Co-ordinator/Team and Senior Leadership Team.

Acceptable Use Agreement For Staff

The computer system is owned by the school and is made available to staff to enhance their professional activities including teaching, research, administration and management. The school's Internet Access Policy has been drawn up to protect all parties - the students, the staff and the school.

The school reserves the right to examine or delete any files that may be held on its computer system or to monitor any Internet sites visited.

Staff should sign a copy of this Acceptable Internet Use Statement and return it to the Principal/ICT Co-ordinator.

- ✓ *All Internet activity should be appropriate to staff professional activity or the pupils' education.*
- ✓ *Access should only be made via the authorised account and password, which should not be made available to any other person.*
- ✓ *Activity that threatens the integrity of the school ICT systems, or activity that attacks or corrupts other systems, is forbidden.*
- ✓ *Users are responsible for all e-mail sent and for contacts made that may result in e-mail being received.*
- ✓ *Use for personal financial gain, gambling, political purposes or advertising is forbidden.*
- ✓ *Copyright of materials must be respected.*
- ✓ *Posting anonymous messages and forwarding chain letters is forbidden.*
- ✓ *As e-mail can be forwarded or inadvertently be sent to the wrong person, the same professional levels of language and content should be applied as for letters or other media.*
- ✓ *Use of the network to access inappropriate materials such as pornographic, racist or offensive material is forbidden.*

Acceptable Use Agreement For Key Stage 2

Children should know that they are responsible for making an Acceptable Use of the Internet. They must discuss and agree rules for this Acceptable Use. Parents are also asked to be aware of the code of Acceptable Use and confirm that their children will follow these rules.

- *On the network, I will only use my own login username and password.*
- *I will keep my username and password private.*
- *I will not access other people's files without their permission.*
- *I will not change or delete other people's work/ files.*
- *I will ask permission before entering any website, unless my teacher has already approved that site.*
- *I will use the Internet for research and school purposes only.*
- *I will only send e-mail which my teacher has approved. I will make sure that the messages I send are polite and responsible.*
- *I understand that the use of strong language, swearing or aggressive behaviour is not allowed when using e-mail etc.*
- *When sending e-mail I will not give my name, address or phone number or arrange to meet anyone.*
- *I understand that I am not allowed to enter Internet Chat Rooms while using school computers/laptops/iPads.*
- *If I see anything I am unhappy with or I receive messages I do not like, I will tell a teacher immediately.*
- *I will only use a personal memory stick when my teacher gives me permission.*
- *I understand that the school may check my computer files/Emails and may monitor the Internet sites that I visit.*
- *I will follow the 'SMART' rules.*
- *I understand that if I deliberately break these rules I could be stopped from using the Internet/E-mail and my parents/carer will be informed.*
